

Mayor's Message

Early last month, I had the honor and privilege to represent Toledo and the League of Oregon Cities in our Nation's Capital for the Congressional City Conference. Five days of meetings and education designed to help us as municipal leaders to get our stories heard, and to help us navigate the federal system.

I was able to meet with our Congresswoman, Val Hoyle, from the 5th Congressional District as well as our United States Senators, Ron Wyden and Jeff Merkley to discuss a variety of issues important to our state as well as Toledo, specifically asks for Congressionally Directed Spending, Rural Broadband, Federal Emergency Management Agency issues, Year-round learning for our children, and Trades Education in our schools. I believe they heard our concerns, and the interesting part was that we came with solutions, not just complaints. I think that their staff and others were buoyed by our resolve to fix and improve, rather than just gripe.

It was an inspiring trip for me, as it had been 40 years since I had been in our Capital. Things have changed! It was a city with very few buildings over 6-8 stories, and now skyscrapers are everywhere. The monuments are even more noticeable, as a few have been added since my last visit. WWII, Korean, and Vietnam Memorials, along with the Vietnam Women's Memorial and the Martin Luther King Jr. Memorial was all new to me. Thinking of my fellow veterans that paid the ultimate price for our country hit me hard.

I also had the honor of being addressed by the President of the United States. This veteran considered it a privilege to be in the same room. For me, it didn't matter whether I agree with the President, he is my Commander-in-Chief, and should be treated accordingly.

One of the most interesting things occurred during a session with the Department of Housing and Urban Development (HUD), as we discussed the changing landscape of the rental market across the country. More and more houses and apartments are being owned by out of area corporate landlords. In many cases rent increases with minimal if any property improvements are becoming the norm. We have seen that here in Toledo with the Toledo Hotel situation. Your City Council worked hard and heard many meetings of testimony while crafting our "Livability" ordinance to address not only the absentee landlord issue, but also the bad tenant issue. Since the meeting with HUD, I have sent out dozens of copies of our ordinance to other cities across the country. Who would have thought that our small town would be at the forefront of this growing issue?

Changing gears, as you can see, this month we are showcasing our volunteers and non-profits here in Toledo. Please consider donating your time and energy to one (or more) of our groups to help keep Toledo the All-American City that it is!

IMPORTANT UPCOMING COUNCIL BUSINESS

Budget season is amongst the Council and many discussions will be had over the next few months on projects for WE WANT YOU the coming Fiscal Year. Your input is greatly appreciated in these discussions.

Coming soon, a Council "Pop Up." This is a meeting with Council in a relaxed setting in the community. Citizens can come have dinner with the Council and discuss issues in a personal setting. Keep an eye out for that date to come.

As we continue towards warmer months, Council will be busy going over projects with staff and providing direction. Please come share with us at a Council meeting your concerns and get the latest on the projects happening in the city.

Your 2023 Annual Water Quality Report is Now Available Online!

The City of Toledo tests and reports on the contaminants in the drinking water. In 2023, contaminants were measured at allowable levels and no health based violations were reported. The report contains important information about the source and quality of your drinking water. In an effort to save printing and postage fees, the 2023 Water Quality Report is now available to view online at: www.cityoftoledo.org/sites/default/files/fileattachments/public works/page/2981/water quality report 2023.pdf

Paper copies of the report are also available at Toledo City Hall (206 N Main Street, Toledo, OR). If you would like a copy of the 2022 Water Quality Report mailed to you, please call 541-336-2247 ext. 2130 or email planning@cityoftoledo.org

If you have any questions about the report or would like more information on how the City of Toledo maintains the safety of your drinking water, feel free to contact the Water Treatment Plant at 541-336-2610.

Public Works: Projects continue around our great little town

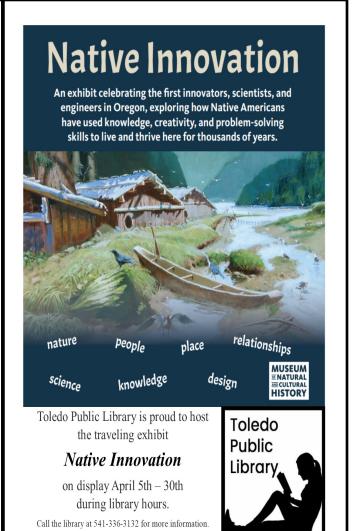

Butler Bridge Road railroad crossing in front of the GP Mill, got a face-lift. The project was a collaboration with P&W Railroad, The City of Toledo and Road & Driveway of Newport. The transition turned out smooth... South East 10th Street between East Slope road and Sturdevant road got a makeover too.

A water line extension of over 900 feet on Business Highway 20 will provide city water services to those near the west junction. This also allows for potential future growth and safety measures by adding fire hydrants along the way.

Pictured are two of our Public Works Department's dedicated workers.

Celebrating Toledo Volunteer & Non-Profit

Agencies

Organization	Description	Contact	Phone Number	Address
East Lincoln County Community Emergency Response Team (CERT)	Offers free emergency preparedness training and organizes trained volunteers to assist professional responders when needed.	Randy Storms	541-444-8253	149 W. Buford Avenue Siletz OR 97380

Toledo Volunteer Fire Department	95% of the Fire Department is volunteer and counts on them when responding to calls for service.	Larry Robeson Joe Ammons	541-336-3311	285 NE Burgess Rd. Toledo, OR 97391

April 14th-20th, 2024

Join us the second week of April in recognizing our Public Safety Emergency Telecommunicators. These individuals are our FIRST 1st Responders, providing lifesaving emergency services for our citizens, 24 hours a day, 7 days a week, and 365 days a year. They are the glue that holds the Toledo Emergency Services Group together. They are the thin gold line, the line that holds the thin blue and red line together. They are the calm voices and the responders you always hear, but rarely see.

Our Toledo Public Safety Telecommunicators and everyday heroes: Katie, Wendy, Molly, Colton, and Natasha.

How did Telecommunicator week come to be, the backstory below:

National Public Safety Telecommunicators Week was founded in 1981 by Patricia Anderson of Contra Costa County, California, which later went on to become a week-long event.

The backstory that marked the establishment of this week went a little something like this...

Sheriff Rainey of Contra Costa County wanted to treat all his administrative staff to lunch one afternoon, to show appreciation for their work not realizing the administration's lines would have went unanswered during business hours. At the time, staff forward ed all calls to dispatch after business hours; but, when Sheriff Rainey bought them lunch, administration pushed their calls to dispatch at 11am and left the building.

Dispatchers were shocked to receive a large increase in call volumes. The supervisor attempted to call the admin department to find out what the problem, only to have the call routed back to dispatch because the department had gone to lunch! Angered, the supervisor sent a dispatcher to the admin department to see what the problem was. Th dispatcher returned to tell the supervisor that the entire building was vacant. When the staff returned at 1pm and disconnected the auto-forward feature, long-time dispatcher, Patricia Anderson, walked over to the admin department to give Sheriff Rainey an earful about the dispatchers call volume for the past two hours.

An hour later, that same day, a sheepish Sheriff Rainey walked into the dispatch department with a giant cake decorated with the words "Happy Dispatcher Week," launching the initiative that has now culminated into National Public Safety Telecommunications Week.
